## More for Less.

More flexibility. More features. More labeling functions. More premium-class presets. And for the first time – all for less cost than comparable price computing scales with printers.

### Three Configurations:

Choose from hanging, remote-scale base or countertop models to fit any application in your store.

### Two Communication Choices:

Native Ethernet or optional RF connectivity enables any BC-4000 scale to be added to your existing network – helping you keep total control of all scales in the store.

### Programmability Options:

Master-satellite programmability and compatibility to product management software ensures PLU and tare weight consistency throughout your operation.

### Flexible Presets:

Set preset buttons to represent PLUs, container tare values, label formats, images and logos. The BC-4000 series has extraordinary power at an exceptional value.

### Three Different Displays Available:

LCD, alphanumeric:  
BC-4000L2 and L2H

VFD, numeric:  
BC-4000S

LED, numeric:  
BC-4000E
